

## Year 13 German

In Year 13, students continue their two year A Level course. Students continue to build and increase their knowledge following the AQA syllabus. All topics covered relate to

- Aspects of German-speaking society: current trends
- Aspects of German-speaking society: current issues
- Artistic culture in the German-speaking world
- Aspects of political life in the German-speaking world

In lessons, students develop the following language skills.

- AO1: Understanding and responding • in speech to spoken language including face-to-face interaction • in writing to spoken language drawn from a variety of sources.
- AO2: Understanding and responding • in speech to written language drawn from a variety of sources • in writing to written language drawn from a variety of sources.
- AO3: Manipulating the language accurately, in spoken and written forms, using a range of lexis and structure.
- AO4: Showing knowledge and understanding of, and responding critically and analytically to, different aspects of the culture and society of countries/communities where the language is spoken.

In the autumn term, a German book/play is studied in depth. This provides them with the literary skills needed to analyse and appreciate the concepts and issues featured in the work of a well-known German author.

Students undertake an Independent Research Project on an area of personal interest related to a German speaking country. This provides students with the opportunity to develop higher level independent learning skills which are essential for post-18 study.

Methods of deepening and securing knowledge:	
Retrieval practice	Retrieval practice is evident in starter activities and in mini-plenaries and take the form of match up exercise/short translation/low stake quizzes. All these tasks are linked to prior learning.
Elaboration	Students are encouraged to elaborate by using idioms, conjunctions and higher level topic specific vocabulary with a varied range of grammatical structures.
Interleaving	Interleaving is essential to embed the grammatical structures and vocabulary taught. Students have access to an AQA vocabulary list at the end of each unit in the text book.
Concrete examples	Concrete examples are given through teachers modelling grammatical structures.
Dual coding	Dual coding is a strategy that students use to aid revision (highlighting/symbols).
Other	Independent research on cultural topics is set as homework tasks. Independent learning via vocabulary learning websites.
